Member Appreciation Baseball Game

Thursday, May 7, 2026

Coca-Cola Park
1050 Iron Pigs Way
Allentown, PA 18109

PPL Picnic Patio

On Thursday, May 7th the Eastern PA Chapter will host a member appreciation event during the Iron Pigs Baseball Game. The game is free for members and their family to attend, but you must register early to guarantee seats in the picnic patio. Please RSVP, including the number of tickets needed, to Danny Ray Leach at danleach58@gmail.com.

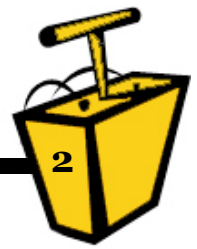

Your ticket includes entrance to the game, a seat and access to the picnic patio buffet. Gates open at 5:00pm and the game begins at 6:45pm. Coca-Cola Park is located at 1050 Iron Pigs Way, Allentown, PA.

Fun Opportunity!

Our Chapter can designate someone to throw out the first pitch. If you would like to do that, please let Danny Ray Leach know so he can make those arrangements.

Lead Lines

Our Chapter Mission Statement

Maintain and promote the highest competency standards, safety, and education for drilling, blasting, seismology and explosives engineer professionals.

Letter from The President

Dear Members,

What a better way to kick off summer than with a Member Appreciation Baseball Game! We hope you and your families can join us on Thursday, May 7th at the Coca-Cola Park in Allentown for an Iron Pigs Baseball Game. Doors open at 5pm with Happy Hour specials. The game starts at 6:45pm. Tickets are free, but you must RSVP to Danny Ray Leach.

I also want to personally thank John Benedict for his dedication to the Chapter and keeping us informed about regulatory news and updates. We wish John the best in his retirement from the Chapter.

With John's retirement, our Chapter is looking for a new Regulatory Chair. If you are interested or need more information about the position, please contact me.

Finally, if you are in need of blasters licence renewal hours, we will host our 2026 Blasters Training on July 30. Registration details can be found on page 4.

Best regards,

Ron Eichler

To only sponsor the training, please email Kristin Klemish at kristink@vibratechinc.com

For Safe Excavation and Complex Projects many people believe that by notifying the One Call System of intended excavation they have completed all of their responsibilities with respect to the locating process. This is not the case. Notifying is only the first step, and there are several other important considerations.

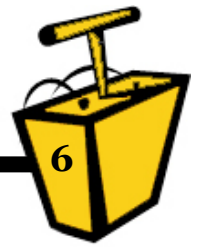

Online Ticket Management is a web service application developed by Pennsylvania 811 to provide excavators and designers a way to view their notifications and facility owners responses.

- View current tickets or five years worth of tickets
- Access to tickets entered online or through the call center
- Search for a specific ticket with an assigned serial number or a series of notifications within a specific date range
- See real time responses from facility owners who were notified on a current ticket or search the system for stored responses (maximum of 5 years)

Start today by requesting the application from your account

John Benedict Announces Retirement from Chapter

John Benedict, Eastern PA Chapter Board of Directors Member and Regulatory Chair recently announced his retirement from the Eastern PA Chapter of the ISEE.

“John served on the Eastern PA Chapter Board of Directors for many years,” said Danny Ray Leach. “He was always dedicated to safety and sharing updates and announcements in his role of Regulatory Chair. Likewise, he was very active on the Board, helping to plan the Clay Shoot & BBQ and attend the Baseball Game Outings. We wish John the very best in his retirement.”

Joint Chapter Meeting Held in March

The Penn State Student Chapter ISEE hosted a joint dinner meeting with the Eastern Pa Chapter ISEE on March 31, 2026. The meeting was held on campus at the Hosler Building, Department of Energy and Mineral Engineering.

The group of 25 individuals included students, faculty members, and members of the Eastern PA Chapter, either in person or via zoom.

The guest speakers were Douglas Rudenko, P.G., Senior Vice President of Vibra-Tech Engineers, Inc. who presented, “Tools for Community Concerns” and Christopher D Catalano, Chief of the Explosives and Safety Section in the Pennsylvania Department of Environmental Protection’s (DEP) Bureau of Mining Programs who presented, “Eating Regulatory Marble Cake: An Overview of Regulatory Agencies.”

Watch Out for Distracted Drivers

Reprinted with the permission of Lancer Insurance Company

If you feel like you are seeing more distracted drivers lately, you are correct. Today, motorists are not only talking and texting on their phones, but they are shooting videos, eating, petting their dog, and even grooming themselves while behind the wheel. To make matters worse, pre-installed vehicle technology is taking people's attention off the road like never before.

Sadly, thousands of people are killed and hundreds of thousands more are seriously injured in distracted driving crashes each year. The dangers are not limited to those behind the wheel—pedestrians, cyclists, and other road users are often among the victims.

Distracted Drivers Continued

Recognizing Distracted Drivers

One of the most effective ways to avoid accidents involving distracted drivers is to recognize the signs early. Keep your eyes moving and watch for these common indicators of distracted driving:

- * Drifting within or between lanes
- * Weaving through traffic
- * Following other vehicles too closely
- * Delayed responses to traffic signals or actions of other vehicles
- * Running red lights or stop signs
- * Erratic or inconsistent speeds
- * Sudden braking without an apparent reason
- * Head-down posture (likely texting or using a device)

Distracted Drivers Continued

Protect Yourself from Distracted Drivers

Even if you are a highly attentive driver, you cannot control the actions of others on the road. However, you can take precautions to protect yourself from distracted drivers:

- * Start with smart trip planning. Drive during off-peak hours, when possible, to avoid heavy traffic, which increases the likelihood of encountering distracted drivers. Stick to well-maintained routes with fewer intersections and stoplights, where accidents are more likely to occur.
- * Maintain a safe buffer. If you suspect another driver is distracted, increase the distance between your vehicle and theirs. The extra space gives you more time to respond if they make a sudden or unpredictable maneuver.
- * Be predictable. Clearly communicate your intentions by using turn signals well in advance. The smoother and more predictable you are, the easier it is for other drivers—even distracted ones—to anticipate your movements.
- * Avoid lingering in the blind spots of other drivers. If they are distracted, they may forget to check if it is clear before changing lanes.

Follow us on  

Distracted Drivers Continued

- * Use your horn (wisely!). A short, polite honk can alert a distracted driver who is drifting out of their lane or sitting through a green light. Avoid aggressive honking, which can escalate the situation or cause confusion.
- * Stay focused yourself. Defensive driving starts with your own focus. Eliminate distractions, keep both hands on the wheel, and scan the road ahead to anticipate potential hazards.
- * Report dangerous drivers. If you encounter someone driving so erratically that they pose an immediate threat to others, pull over safely and call 911. Be prepared to provide the vehicle's location, direction of travel, and a description to help law enforcement respond quickly.

Distracted drivers put not only themselves at risk, but everyone else on the road. By staying alert for distracted drivers and applying defensive driving techniques, you can help avoid the dangers caused by other motorists' poor decisions and contribute to a safer road environment for everyone.

See how we accelerate the transformation

Most people say that three things are transforming our industry. I say it's four.

ACCELERATE
THE TRANSFORMATION

Electrification, digitalization and automation are fundamentally transforming the mining and construction industry. But what many forget is the fourth aspect: the people behind the innovations. Because only new ideas can speed up the shift toward a more sustainable mining and construction industry. We at Epiroc accelerate this transformation.

Chapter Seeks Regulatory Chair Nomination

The Eastern PA Chapter ISEE is looking for nominations for a Regulatory Chair.

The Regulatory Chair is responsible for disseminating health and safety information for our industry to Chapter Members. They provide updates on new guidelines and share information released from our governing authorities like MSHA. If you or someone you know stays on top of regulatory issues related to our industry, please consider serving as our Chapter Chair. If you are interested or have any questions, please contact Ron Eichler or Danny Ray Leach.

It's Membership Renewal Time

June is the Chapters Membership Renewal period. Invoices will be emailed in May and the Chapter would appreciate everyone's prompt renewal.

Membership in the Eastern PA Chapter of the ISEE keeps you connected to news and events in the drilling, blasting and seismic fields. Members receive benefits such as quarterly newsletters, training opportunities, regulatory and safety updates as well as informational and social events. A yearly membership only costs \$35. And you can save with a Corporate Membership! A corporate membership includes up to 5 members and a free business card advertisement in the quarterly newsletter (\$60 value)- all for \$155. A deluxe corporate membership includes up to 10 members and a 1/2 page advertisement in the quarterly newsletter (\$180 value)- all for \$255.

You have 3 renewal options:

1. Visit the membership renewal form on our website at <https://www.easternpaisee.com/membership/>
2. Complete the membership form on page 21
3. Check your email and pay your membership renewal invoice online
